

Title: Wetland Ecologist

Firm: Cox|McLain Environmental Consulting, Inc. (CMEC)

Location: Houston, Texas

Job Description: CMEC is seeking a qualified, energetic, self-motivated, and resourceful wetland ecologist to lead a team. Duties may include planning, implementing, and personally conducting wetland delineations, biological surveys (for migratory birds and threatened/endangered species) and habitat assessments, vegetative assessments (knowledge of Texas and Gulf Coast vegetation and wetlands a must). Other job duties may include preparation of environmental documents (primarily technical reports and environmental assessments for USACE, TPWD, TxDOT, ODOT, and USFWS review) for projects throughout the region. Job may include travel and physical work in rough terrain, inclement weather, exposure to wild animals, etc. Experience with wetland permitting (NWPs, IPs, USCG permits) and functional assessment preferred. Professional Wetland Scientist (PWS) certification a plus. Compensation will include a competitive salary and benefits package (health, vacation, profit sharing, etc.).

Qualifications: Successful applicants will possess a BS or MS in wildlife biology, rangeland ecology, environmental science, forestry, botany, soil science, or a closely related natural resource field, and at least 5 years of relevant/consulting experience in conducting wetland delineations. Also required is an overall dedication to excellence; strong writing skills; a strong work ethic with a demonstrated ability to work independently; and solid field skills including the ability to navigate in difficult terrain using aerial maps. Familiarity with GPS data collection, a broad range of ecological communities, environmental regulatory compliance, and prior consulting experience is preferred. A valid driver's license is required. Bilingual (Spanish) is a plus.
