CMEC Receives WBE and DBE Certifications

As of December 2007, CMEC is pleased to be officially certified as a **Woman-Owned Business Enterprise (WBE) with the City of Austin**. We are submitting our WBE certificate to South Central Texas Regional Certification Agency and North Central Texas Regional Certification Agency as well to receive reciprocity as a WBE in those regions.

In addition, we have qualified as a **Disadvantaged Business Enterprise (DBE) with the State of Texas Unified Certified Program (TUCP)**. This certification is often required in State of Texas (including Texas Department of Transportation) Requests for Proposals. CMEC can not only fulfill your environmental document preparation and regulatory compliance requirements but also we can help fulfill DBE percentage requirements for your team. Please contact us at 512/338-2223 or info@coxmcclain.com so we can provide project-specific and geographically-specific information to strengthen your proposal while fulfilling your **WBE** and **DBE** needs.

CMEC Adds 2.9.1 Historic Architecture Precertification

CMEC is pleased to announce that we are **TxDOT Pre-certified in 2.9.1 Historic Architecture**. J.C. Schmeil, AIA, will exclusively provide his services to CMEC to strengthen our environmental team. Mr. Schmeil has worked in central Texas for 10 years. His project experience ranges from residential design to commercial and institutional projects. His work experience includes Merzbau Design Collective, KRDB, Black & Vernooy Architects, Atelier Christian de Portzamparc (Paris, France), and the University of Texas at Austin School of Architecture. Please contact us for more information.

North Texas Tollway Authority Business Opportunity Program Recognizes CMEC

CMEC qualifies for the North Texas Tollway Authority (NTTA) Business Opportunity Policy and Program (known as "BOPP"). If you have contracts with NTTA and have a new assignment, you can request to work with our team for environmental services to help fulfill your BOPP requirements. For more information, please contact us at info@coxmcclain.com or call us at 512/338-2223. **HAPPY HOLIDAYS FROM CMEC!**
